

## **Anderson, Marilyn - 1952-2003**

“Greetings to the great class of 69 & 70! I have recently been diagnosed with stage 4 Maligant Melanoma (skin cancer) as they found a huge mass in my chest. I underwent open heart surgery and they were able to remove the tumor in Jan. 03 but now CT scans show it has spread. I have been told I have weeks/months to live. So as I prepare for my journey to the other side, I often think of so many fond memories with the good ole West High friends. Thanks for adding so much to my life.”

~Love, Marilyn Anderson (3/16/03)
